

Overview

English 6 is the second half of 11th grade ELA. The focus continues to use literature to ask and answer questions about what it means to be an American. I have designed the course to be a rich, engaging, and thought-provoking experience to help you become a better reader, writer, listener, speaker, critical thinker, and member of society. My philosophy as a teacher is to support your needs and help you with transferrable skills that will actually help you in real life. Ten years from now, it will not matter if you can remember the specifics of the plot of some book a dead white guy wrote. What will matter is your ability to think critically and creatively, respond to texts and media, communicate effectively with other humans, understand different perspectives, and use the power of literacy to change your life and this world for the better.

expectations
